PUMP ASSEMBLY

Before playing, cover the area to prevent possible water damage.

Use a screwdriver (not included) to assemble the pump onto the faucet (B) with the three screws (L).

Fit faucet/pump assembly into the opening in the sink. The faucet should face the sink basin.

Press down firmly on the faucet/pump unit until it snaps into place. **NOTE:** Faucet pump/unit cannot be removed once assembled.

Hold sink stopper over the sink drain and press down firmly until it pops into place.

USING THE SINK

Before playing, cover the area to prevent possible water damage.

Pull outward on the side edges of the sink top and lift to remove the top from the sink base.

Fill sink base ONLY with clean, clear water up to the water fill line. **DO NOT** use other liquids or soap of any kind with the sink.

Place the sink top onto the sink base and press firmly. **NOTE:** The pump will fit into the pump bracket.

With the stopper fully covering the sink drain, press down on the pump plunger **several** times until water begins to flow out of the faucet and into the sink.

After you are finished playing, lift the sink stopper slightly and hold to drain water from sink basin.
